

scheda tecnica BIGMAXWELL

bracciolo largo

Questo divano è interamente realizzato a mano in ogni fase di lavorazione rappresentando la massima espressione dell'artigianato brianzolo. E' possibile produrlo su misura cliente oltre alle misure proposte in questa scheda tecnica rappresentativa.

Inoltre il suo comfort è personalizzabile modificando la sua profondità oppure usando differenti tipologie di imbottiture con varie densità di rigidità.

E' consentito anche modificare alcuni dettagli come i piedini o l'altezza della seduta/schienale

Struttura telaio in legno massello rinforzato, garanzia sulla struttura 10 anni.

Molleggio con cinghie di cuoio e cauccio INTES®

I cuscini schienali sono in Piuma d'oca vergine canalizzata in scompartimenti separati su tre livelli. All'interno della fodera contenitiva della piuma viene inserito un inserto in Poliuretano espanso indeformabile per sostenere bene lo schienale. La fodera protettiva finale del cuscino è in 100% cotone anti perforatura piuma sulla quale viene cucito il sigillo di Garanzia PI-UME®

I cuscini della seduta sono in Poliuretano espanso OLMO® ad alta densità, un materiale tecnico performante indeformabile a lunga durata. Su questo massello viene poi applicata una ulteriore lastra di Poliuretano bombata in modo da rendere graziosa e arrotondata la silhouette del cuscino. Infine il sedile viene avvolto da morbida fibra TECNOFORM® da 500 grammi accoppiata al cotone, il tutto per conferire un look "piumoso" anche se con un ritorno di forma immediato.

Le rigidità dei sedili è personalizzabile a piacere. Su richiesta è possibile realizzare i cuscini della seduta con la bombatura applicata in visco-elastico Memory Form.

Su richiesta è possibile realizzare i sedili in Piuma d'oca vergine e inserto in Poliuretano espanso.

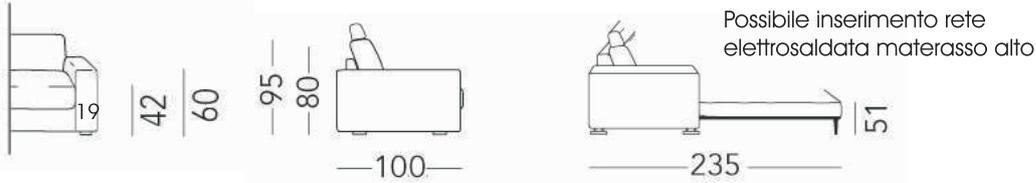

La qualità di tutti i nostri cuscini (sedili-schienali) viene autenticata con un sigillo di garanzia cucito sulla fodera contenitiva.

Questo sigillo "Made in Italy" descrive in modo dettagliato il materiale che viene utilizzato, il produttore e la conformità alle normative e decreti ministeriali in vigore.
